A Canadian-owned, family company

Bathe in comfort and safety

It's now easier than ever to bathe or shower whenever you want – in a safe, relaxing walk-in bathtub by Carefree Bathing (Canada) Inc. If like many of us, you have difficulty getting in and out of a conventional bathtub, Carefree Bathing can help. Bathe confidently without any assistance, enjoying the very best designs in walk-in bathtubs.

It can be challenging to step in and out of conventional bathtubs. There's no need to miss out on the comfort and health benefits of genuine bathing any longer. Transform your bathroom with a high quality, attractive Carefree Bathing walk-in bathtub. Take advantage of a warm, deep bath to help alleviate everyday aches and pains. Many of our clients enjoy using a warm, deep bath to get relief from arthritic pains, poor circulation, muscle tension and joint discomfort.

Versatile and practical, your walk-in bathtub is also a walk-in shower. For those times when you need a quick, invigorating shower, Carefree Bathing offers you the ideal bathroom fixture. Enjoy a shower while seated or standing, or treat yourself to a long, deep, luxurious soak while the heated air-jets surround you with gentle bubbles for a relaxing, full-body massage.

*Walk in, sit down, relax and enjoy...
now **that's** Carefree Bathing!*

Practical and durable

Our specially designed walk-in bathtubs feature a chrome plated steel support frame on every model – the sturdiest, most durable construction available. This exclusive frame provides strength and stability, prevents leaking and ensures your walk-in bath will give you many years of comfortable, safe, and independent bathing or showering.

We offer different models to meet your specific needs – all at fair and competitive prices. Besides enjoying a worry-free, relaxed bathing experience, a walk-in bathtub is a practical investment in your future. Stay in your own home, and be comfortably independent. Please read on to find out more about how you can enjoy a Carefree Bathing experience today.

Enjoy a warm, relaxing soak to relieve those everyday aches and pains, or refresh yourself with an invigorating shower – all in a safe, easy-to-use walk-in bathtub.

Carefree Bathing at-a-glance

- **Easy to use** – The low-level entry, contoured door makes stepping in and out of your walk-in bath a breeze, and the lever handle door lock is secure and easy to open and close.
- **Safe** – The anti-slip floor gives you safe, secure footing, and the high seat makes it easy to sit down or stand up. You also have the option to take a stand-up or sit-down shower.
- **Private spa** – Enjoy the health benefits of a relaxing hydrotherapy air-massage anytime, right in your own home.
- **Solid** – No leaking thanks to the stainless steel support frame and durable door seal. For extra protection, the door opens inward to ensure it stays shut when in use.
- **Hygienic** – All hydrotherapy models have an automatic self-clean feature to prevent the build-up of mould and mildew. No scrubbing or harsh cleaners required!

Solid, dependable construction

Perfectly engineered

All Carefree Bathing walk-in baths are designed and manufactured using a perfectly engineered combination of fibreglass for strength and stability, and a high-quality durable gel coat for a rich and lustrous finish. This combination makes your new walk-in bath virtually maintenance-free. With a gentle wipe from you, it will retain its hand-polished gloss and lustre for years to come.

Quality that stands the test of time

No worries about leaking from the door seal. Our **inward opening door** ensures there is no stress on the full-length, stainless steel door hinge. In fact, the water pressure from inside the filled bathtub, plus Carefree Bathing's door locking mechanism join forces to keep the door tightly closed. But that's not the only protection. A marine-grade rubber door seal bounces back to its original shape every time the door is re-opened. You are assured of a safe, secure, leak-proof closure. **Simple science and smart technology working together** means peace of mind for you.

No structural changes to your home

Our products fit into most bathtub or large shower stall spaces, so no job is ever a problem for our experienced installation team. We strive to keep disruptions to your schedule minimal by completing the project in one to two days from start to finish.

We will expertly install everything you require, make any necessary alterations, and then remove and dispose of all debris. In addition to guaranteeing the products you choose, we also guarantee our installation services so you can feel completely confident in the choices you make. All you have to do is relax, unwind, and enjoy your Carefree Bathing experience.

The strong support frame provides structural integrity – ensuring many years of comfortable, safe, and independent bathing.

Your own private spa

The amazing benefits of hydrotherapy

Imagine the enjoyment of a walk-in bath with a hydrotherapy spa in your own home, easing tension and soothing painful joints and muscles. Warm water gently pulsates, melting away stress and strain. Step out of your bath easily and confidently, feeling relaxed and rejuvenated.

An in-line heater keeps you comfortable and warm, so sit back and savour a long, luxurious soak. Unlike a traditional water-jet tub which can exert uncomfortable pressure, our air-jets create thousands of tiny bubbles at the touch of a button. Often thought to increase circulation, hydrotherapy may help to relieve swelling, stiffness and pain associated with arthritis.

Our hydrosipa creates thousands of tiny bubbles for a gentle, full body massage.

If you don't want to get undressed and take a full bath, you can always enjoy a relaxing leg or foot massage. Fill the tub with a few inches of water and turn on the hydrotherapy. Lean back and enjoy a soothing massage for your aching feet and legs. Use a cool footbath to refresh tired feet after a long day. Imagine a wellness and relaxation retreat in the comfort of your own home! Up to 24 warm air-jets surround your body with "champagne bubbles" for a blissful hydrotherapy massage. We can help you choose the ideal options for you.

Clean, safe and easy to maintain

Carefree Bathing's air-jet system allows you to keep your bathing environment clean, mildew-free and hygienic without extra maintenance, cleaning or harsh chemicals. The self-clean feature eliminates any trace of water from the spa jets preventing build-up of bacteria, mould and mildew. For safety, each jet has a check-valve to prevent water from entering the hydrotherapy system.

Easy and safe to use

Features designed with your needs in mind

Whether you want a relaxing soak, a therapeutic hydrotherapy spa experience or a quick, rejuvenating shower, our walk-in baths have been carefully designed with safety and independence in mind.

The **low-level entry** ensures you can enter and exit the bath easily, without assistance. Opening inward, the **contoured door** allows you to walk right into the tub, and sit down. You don't have to stay standing as you close the door. The contoured, cut-away door glides easily over your knees so there's no need to twist your legs out of the way. The door is locked securely by pushing lightly on the **levered handle**. The specialized, marine-grade rubber **door seal** provides you with a watertight bath fixture you can use with confidence day in and day out.

Temperature controlled and slip-resistant

Each and every walk-in bath has a **slip-resistant floor** assuring you safe, secure footing. The built-in molded seat is also slip-resistant, allowing you to relax and sit comfortably. The **comfortable 17.5" seat height** also makes it easy to sit down and stand up. The handheld shower wand and shower accessories give you the choice of sitting or standing while you shower.

Water temperature can be pre-set to your preference at the time of installation, so you are never in danger of scalding yourself. You can enjoy a perfect bath every time without having to adjust the water temperature.

And when you finish, your Carefree Bathing walk-in bathtub drains so quickly there's no chance of getting a chill while waiting to get out. Unlike narrow mechanical drains used in other bathtubs, our no-fail drains are open and unobstructed – so you'll never be waiting in a tub full of water.

Selection

Choose the model that fits your needs

Carefree Bathing offers you different walk-in bath models to meet your specific needs and décor. Each of these baths is available in your choice of a right- or left-hand model to adapt to your existing bathroom layout.

The compact **Nisa** fits into the smallest of spaces and includes a 12-jet air massage hydrotherapy spa. This compact beauty allows you to take a regular shower whenever you choose, with space to sit and soak any time you wish.

By far, our most popular and versatile Walk-in Baths are the **Freedom** and **Supreme** models. The quality of these walk-in bathtubs is unsurpassed by any other bath on the market. They are feature-rich with options like a 24-jet air massage hydrotherapy spa, a “bidet jet” to facilitate personal hygiene, chrome lever-handled faucets, thermostatic anti-scald valves, anti-slip floor and seat, and a convenient, practical hand-held shower with adjustable slider bar.

Nisa	42” length	26” width	36” height
Freedom	52” length	26” width	41” height
Supreme	52” length	30” width	41” height

Special options and accessories

We offer a wide range of accessories to complement your new walk-in bath, such as hand-held showers, curtain rods, floor to ceiling support poles, or wall-mounted safety bars. We can personalize your bathroom to meet your requirements. Talk to us about how to make your bathroom beautiful and functional.

A Canadian-owned, family company

We pride ourselves on our customer service

Carefree Bathing (Canada) Inc. is a family-run, Canadian company based in Mississauga, Ontario with more than 40 years experience in renovating bathrooms. After receiving many requests from our customers to make bathing easier, safer and more convenient, we are pleased to offer these innovative and practical bathing options all across Canada.

We are proud to offer only the best products to our discerning clients. All of our walk-in bathtubs have been rigorously tested, installed and enjoyed in homes throughout the country. Carefree Bathing walk-in baths are designed to fit into our Canadian homes and lifestyles. We pride ourselves on getting to know and understand our customers, so no matter where you live in Canada we're here to assist you. We look forward to helping you choose the product that's right for you.

A great investment in peace of mind

Not only does a Carefree Bathing walk-in bath give you a safe, relaxing bathing experience, it is a wise investment in your future. Why not adapt your home to your needs? Enjoy the freedom and independence of bathing in a clean, safe environment without having to give up privacy and dignity. Many of our clients are updating their bathrooms now to plan ahead for their future comfort and convenience. We invite you to experience peace of mind and a renewed sense of well-being in your home.
